5.1 Deville Group - Dv

Lower Paleozoic

- [Commission members](#)
- [Proposals and discussion](#)
- [Lithostratigraphy](#)
- [Chronostratigraphy](#)

Description: Equivalent of the "Système Devillien" of Dumont (1847). It consists of two formations from base to top: the La Longue-Haie and the Les 4 Fils Aymon Fms. The upper boundary of the Deville Group with the Revin Group is placed by Beugnies (1960) at the top of the Renaissance Mbr (Les 4 Fils Aymon Fm); its lower boundary is not observed.

(M. VANGUESTAINE)
